

OBS X

Obstacle LED light

SUMMARY

Product summary:

OBS X – Advanced universal Obstruction Light with Infrared LED Technology

The **OBS X** sets a new standard in aviation obstacle lighting, combining cutting-edge design, advanced LED technology, and compliance with international aviation regulations. Engineered to mark hazards for aviation safely and effectively, the OBS X ensures pilots can rely on its performance, even in challenging weather conditions.

Features and Benefits:

- **Total Waterproof Design:** The OBS X is completely and remain totally waterproof or humidityproof. Aerolighting has built its reputation on the exceptional quality and long-term waterproofing of its products — and this one is no exception!
- Integrated with an **IP68 quick connector** (from German manufacturer), the lamp provides easy and waterproof connectivity.
- **Next-Generation Infrared LED:** Equipped with the innovative **SafeBeam** LED system, the OBS X provides precise red and infrared illumination for enhanced visibility and compliance with international standards. With a lifetime exceeding **80,000 hours**, these LEDs deliver exceptional durability and photometric stability.
- **Internal Twilight Sensor:** For added efficiency, the OBS X offers an internal **twilight sensor**, allowing the light to operate automatically in low-light conditions, ensuring energy savings and consistent performance.
- **Optionally for flashing model:** integrated GPS synchronization, ensuring coordinated flashing across multiple units
- Features a **dry contact fault indication** output, providing reliable signaling for system diagnostics and maintenance alerts. Monitoring constantly many parameters on the light (LED, current, voltage...)
- **Ease of Installation and Maintenance-Free:** Designed for simplicity, the OBS X is easy to install and requires no routine maintenance, reducing operational costs and downtime.
- User-selectable: TYPE A or TYPE B mode.(10cd or 32cd)
- As always with Aerolighting, the electronic and electrical design follows the highest industry standards. This lamp is engineered to operate at its rated value in temperatures up to 80°C!

The **OBS X** complies with both international aviation guidelines and local authority regulations, making it a robust and reliable choice for marking obstacles in all conditions.

Design:	Obstacle LED light ICAO Low intensity Type A/B User selectable A/B
Material:	Aluminum
IP Rating:	IP 67
InfraRed	Integrated
Projection:	<250mm
Alarm	Yes, voltage and current monitoring with alarm relay

Power supply	110~240VAC Or 24VDC
Power:	Max. 8W
Standards:	ICAO
Brightness ctrl.:	No
LED Lifetime:	> 80'000 hours
Twilight sensor:	Photocell integrated

TECHNICAL DESCRIPTION:

Mechanical characteristics (without universal bracket):

<i>Body material:</i>	Aluminum
<i>Diameter:</i>	159mm
<i>Height above ground:</i>	Max 135mm
<i>Weight:</i>	1.6 kg
<i>Ambiant Temperature range:</i>	-35° to +55°C
<i>Protection Class:</i>	IP67
<i>Connection:</i>	IP68 quick connector
<i>Photocell:</i>	Integrated photocell (internal) User-selectable trigger level: 600 lux, 400 lux, 300 lux, or always ON

Optical characteristics: (visible and IR)

<i>Technology:</i>	High Power LED
<i>Light source:</i>	Aerolighting SafeBeam Red + IR
<i>Available color:</i>	Red + InfraRed / IR: ~850nm
<i>Intensity (Red):</i>	User selectable (jumper) Type A or Type B ICAO (10cd or 32cd)
<i>Horizontal output:</i>	360°
<i>LEDs Lifespan:</i>	>80'000 hours

Electrical characteristics:

<i>Supply Voltage:</i>	110~240VAC 48 Volts DC
<i>Power:</i>	Max 8 Watts
<i>Connection:</i>	L/N/PE Alarm/Alarm
<i>Type of cable:</i>	Max: 5x2.5mm ²

Option:

<i>Universal mounting bracket:</i>	Stainless steel universal mounting bracket (for tube, wall, and surface mounting). Two brackets can be combined to create a dual-mount system, compatible with tube, wall, and surface installations.
<i>OFAC (Switzerland infrared flash):</i>	Special version conform to OFAC swiss standard (flashing IR) Max 15 Watts
<i>Special version on request</i>	

<i>ICAO Annex 14 Vol I</i>	Low intensity obstacle LED light type A and B
<i>IEC 60598-1 :2020</i>	Ingress protection class dust/liquids
